

EF2600FW

YAMAHA generators are among the most reliable and efficient products. Designed for domestic and professional use, YAMAHA generators have a robust design that allows them to face any type of environment. Available in gasoline or diesel engines and with a power ranging from 1 to 26 Kva, these generators meet multiple needs.

TECHNICAL CHARACTERISTICS	EF2600FW
GENERATOR	
Generator type	Brushless, synchronous / single-phase AC
Maximum Power (Kva)	2,3
Rated Output (Kva)	2,0
Frequency (Hz)	50
Rated Voltage (V)	220
MOTOR	
Noise Level (Db)	65
Autonomy (H)	10,6
Fuel Tank Capacity (L)	12
Startup system	Manual
Displacement (cm ³)	171
Engine type	4-stroke petrol
DIMENSIONS	
Dimensions (Lxwxh) in mm	510x415x425
Dry weight (Kg)	41
EQUIPMENTS	
Plug wrench	✓
Handle	✓
Owner's manual	✓
