

YAMAHA generators are among the most reliable and efficient products. Designed for domestic and professional use, YAMAHA generators have a robust design that allows them to face any type of environment. Available in gasoline or diesel engines and with a power ranging from 1 to 26 Kva, these generators meet multiple needs.

EF5500EFW

TECHNICAL CHARACTERISTICS

EF5500EFW

GENERATOR

| | |
|---------------------|--|
| Generator type | Brushless, synchronous / single-phase AC |
| Maximum Power (Kva) | 4,5 |
| Rated Output (Kva) | 3,8 |
| Frequency (Hz) | 50 |
| Rated Voltage (V) | 220 |

MOTOR

| | |
|---------------------------------|-------------------|
| Noise Level (Db) | 70,7 |
| Autonomy (H) | 12 |
| Fuel Tank Capacity (L) | 28 |
| Startup system | Manual / Electric |
| Displacement (cm ³) | 358 |
| Engine type | 4-stroke petrol |

DIMENSIONS

| | |
|--------------------------|-------------|
| Dimensions (Lxwxh) in mm | 670x535x565 |
| Dry weight (Kg) | 90 |

EQUIPMENTS

EF5500EFW

| | |
|----------------|---|
| Plug wrench | ✓ |
| Handle | ✓ |
| Owner's manual | ✓ |
